

Notice

It has been reported that a number of ATV safety and directional signs have been removed from local trails. Actions such as that are not condoned by the Eagles Nest Township Board of Supervisors, and they may well be illegal. At the very least, removal of such signs can lead to unsafe trail riding. If you have any evidence pointing to the individual(s) who committed the act, you are encouraged to notify law enforcement. You are reminded, however, that casting allegations without evidence may be the basis of a defamation claim. Conjecture and speculation are not helpful, but sound evidence might help to hold the perpetrator(s) accountable.
